Below is an example of a correctly bubbled placing of 2341

When bubbling in your placings, only bubble in the first 3 numbers of your placings. The 4th is automatically known when you bubble the first 3.

Example: If your desired placing is 2341

- bubble in 2 in the first column.
- bubble in 3 in the second column
- bubble in 4 in the third column.
- do not bubble the 1 any place
